

TUTORING AREAS IN THE LIBRARY

In order to maintain a welcome atmosphere for tutors, students, and our diverse Library users, we ask that private tutors meet with their clients in areas designated especially for, but not limited to, tutoring.

Located on the main floor of the library, both tutoring areas are conveniently near comfortable seating for waiting.

- First, look for the tables along the east wall of the library, in the last aisle of the Fiction books. Seating for waiting is adjacent to the area, just outside of the Administrative Offices.
- Second, there are tables in the Info Commons area, conveniently near Internet and Research computers. Comfortable chairs for waiting are located along the west wall by the magazine collection.

Remember that we have abundant resources to assist students. A librarian is always available to help with research, locating materials, or recommending online resources.

Thank you for using the St. Charles Public Library, and we hope that your visit today is productive and comfortable.
